Address	

1. I confirm that the components and systems listed above comply with UN/ECE Regulations, EEC/EC/EU Directives, ADRs, Japanese domestic standards, or other approved standards for which type approvals are issued by the controlling jurisdictions or certification bodies at the time of manufacture.
2. I also confirm that where test certificates necessary to claim compliance with the above standards are required by the controlling standards authority, these are in existence for the vehicle(s), components and systems identified above and explicitly cover the production facility/facilities where the vehicle(s), components and systems were manufactured.
3. I also confirm that, for any components and systems complying with FMVSSs:
  - a. test results are in existence demonstrating compliance of the components and systems with FMVSSs; and
  - b. arrangements are in place to ensure conformity of production to cover all stages of manufacture of the vehicle(s), components and systems; and
  - c. the components and systems are designed and manufactured for use in the USA.
